THUNDER  
MOUNTAIN  
WIND & FIRE

*Northern Colorado*

## Why join

**Chris Probst:** "I wanted to extend the camaraderie from the fire house to my riding. I started riding on the street in 1971 and always thought I should join some motorcycle group; then along came Wind & Fire, so here I am."

**Janet Probst:** One of my dreams has always been to own my own Harley. Right after I bought my first one we started our Wind & Fire chapter and joining seemed like the thing to do."

## Who We Are

### About Us

Wind & Fire MC Inc. is an international "motorcycle-club" that unites firefighters, active or retired, who ride Harley-Davidson motorcycles. Firefighters from paid, volunteer, and private departments are considered. W&F MC carries the "broad" scope even further through its Associate Membership classification. The only requirement for Associate Membership, besides the dues, is sponsorship by a Full Member.

Thunder Mountain Wind & Fire was established in September 2002. It is the 81<sup>st</sup> chapter in an international organization of 4,300 members and 170 chapters spanning 49 states and 23 countries.

## What we do

Quarterly meetings to discuss events and activities, get together and/or take a ride.

Spontaneous rides just for the fun of riding together!

Interaction and activity with other fire agency members that have a passion for riding.

Thunder Mountain Wind & Fire supports Angel Faces ([AngelFaces.com](http://AngelFaces.com) and [facebook.com/angelfacesinc](https://facebook.com/angelfacesinc)) with a large annual charity run in September. "What a small yet MIGHTY group with a massive heart. A family of passionate comrades who have allowed us, through their fundraising, to change the lives of girls in the Northern Colorado Area. Your hard work and dedication to Angel Faces over the past 8 years has been life changing. Because of you, local girls have participated in our program and now have joined our mentorship program in leading other younger girls who have burns and trauma. YOU GUYS ROCK." – Lesia Cartelli, Founder/CEO Angel Faces, Author of Heart of Fire.
